PART I

Item 1. BUSINESS

General Description

CKX Lands, Inc. is a Louisiana corporation organized in 1930 as Calcasieu Real Estate & Oil Co., Inc., to receive non-producing mineral royalties spun off by a southwest Louisiana bank. Over the years, as some of the royalties yielded oil and gas income, the Company used the proceeds to purchase land. On May 17, 2005, the Company changed its name from Calcasieu Real Estate & Oil Co., Inc. to CKX Lands, Inc. The primary reason for the change was to help clarify that the Company is not directly involved in oil and gas exploration or operations. As used herein, the “Company” or “CKX” refers to CKX Lands, Inc.

The Company’s shares are listed on the NYSE MKT (previously known as NYSE AMEX), under the symbol CKX. As of March 20, 2015, there were 1,942,495 shares outstanding. The Company had a common equity public float of less than \$75 million as of the last business day of the second fiscal quarter. Consequently, the Company is a small reporting company under the Securities Exchange Commission regulations.

As a reporting company, CKX is subject to the informational requirements of the Securities Exchange Act of 1934 (the “Exchange Act”) and accordingly files its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other information with the Securities and Exchange Commission (the “SEC”). The public may read and copy any materials filed with the SEC at the SEC’s Public Reference Room at 100 F Street, N.E., Room 1580, Washington, DC 20549. Please call the SEC at (800) SEC-0330 for further information on the Public Reference Room. As an electronic filer, CKX’s public filings are maintained on the SEC’s Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

The Company will provide to stockholders without charge upon their written request a copy of the registrant's annual report on Form 10-K, including the financial statements and the financial statement schedules, required to be filed with the Securities and Exchange Commission for the registrant's most recent fiscal year. Requests should be sent to Brian Jones, President, CKX Lands, Inc., 1508 Hodges Street, Lake Charles, LA 70601.

The Company owns land, timber, and mineral interests and collects income through its ownership in the form of oil and gas royalties, timber sales, and surface leases for farming, right of way and other uses. The Company is not involved in the exploration or production of oil and gas nor does it actively farm its lands.

CKX owns a 100% interest in 6,243 acres, 16.667% undivided interest in 35,575 acres, 40% undivided interest in 1,579 acres and 50% undivided interest in 443 acres resulting in an ownership of approximately 13,025 net acres.

CKX does not perform or cause to have performed oil and gas producing activities inasmuch as: (1) we do not search for crude oil or natural gas in their natural states; (2) we do not acquire property for the purpose of exploration or the removing of oil and gas; and (3) we are not involved in construction, drilling and/or production activities necessary to retrieve oil and gas.

Oil and gas royalties are paid by the operators who own the wells. Timber income is paid by the highest bidder of the timber. There are several mills in the immediate area that compete for timber. Surface income is received for farming, right of way or other surface land uses. The prices paid for oil, gas and timber depend on national and international market conditions. Prices paid for surface leases depend on regional and local market conditions. Oil and gas revenues were 56.66% of the Company’s total revenues in 2014 and 85.50% in 2013.

The source of all raw materials for the Company is the land itself. All oil and gas income will eventually deplete, but we have no access to this depletion information. Timber income and agriculture income are renewable resources.

The Company does not spend any money on Research and Development.

The Company does not need government approval of its principal products or services except that the State of Louisiana must approve the size & location of all oil and gas producing units.

Employees

The Company has three employees, all of whom are part-time. There are two officers, and one clerical person. The Company is subject to no union contracts nor does the Company have any hospitalization, pension, profit sharing, option or deferred compensation programs.

Customers

The Company's customers are those who have mineral leases on Company lands, purchase timber in competitive bids or execute surface leases for farm or other purposes. During 2014, the Company received approximately 74.42% of its total revenues from the following customers:

<u>Customer</u>	<u>Revenue Type</u>	<u>% of Total Revenue</u>
Midstates Petroleum Company	Oil & Gas	25.96%
Georgia Pacific	Timber	23.84%
Swift Energy Operating LLC	Oil & Gas	6.62%
Enterprise Pipeline	Surface	6.61%
Riceland Petroleum Company	Oil & Gas	6.11%
Entergy Corporation	Surface	5.29%

Loss of cash receipts from any of these customers or revenue streams would have a material adverse effect on the Company.

Environmental and Other Governmental Regulations

The operators of the wells are responsible for complying with environmental and other governmental regulations. However, should an operator abandon a well located on Company land without following prescribed procedures, the land owners could possibly be held responsible. The Company does not believe this would have a material effect on its financial condition.

Item 2. PROPERTIES

The Company owns a total of 13,025 net acres in the Louisiana Parishes of Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis, LaFourche, Sabine, St. Landry and Vermilion. Most of the acreage is in Southwest Louisiana. As presented in the table below, some of the Company lands are owned in indivision.

		<u>Net Acres</u>
100.000%	Ownership of 6,243 acres	6,243 acres
40.000%	Ownership of 1,579 acres	632 acres
50.000%	Ownership of 443 acres	221 acres
16.667%	Ownership of 35,575 acres	5,929 acres

Of the total 13,025 net acres owned by CKX, timberland comprises 9,637 acres, 2,251 acres are agricultural land, 943 acres are marsh land and 194 acres are future subdivision land.

The table below shows, for the years ended December 31, 2014 and December 31, 2013, the Company's net gas produced in thousands of cubic feet (MCF), net oil produced in barrels (Bbl), and average sales prices relating to oil and gas attributable to the royalty interests of the Company as reported by the various producers.

	Year Ended <u>12/31/14</u>	Year Ended <u>12/31/13</u>
Net gas produced (MCF)	46,457	42,117
Average gas sales price (per MCF) ⁽¹⁾	\$5.05	\$4.42
Net oil produced (Bbl) ⁽²⁾	10,593	13,273
Average oil sales price (per Bbl) ^(1,2)	\$98.03	\$104.62

Notes to above schedule:

⁽¹⁾ Before deduction of severance taxes and other charges.

⁽²⁾ Excludes plant products.

Item 3. LEGAL PROCEEDINGS

The Company was not involved in any legal proceedings as of December 31, 2014.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of security holders during the three months ended December 31, 2014.

PART II

Item 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The Company's Common Stock is traded on the NYSE MKT (previously known as NYSE AMEX) under the trading symbol CKX since its listing on December 8, 2003. Prior to the listing there was no established public trading market for the Common Stock, and there had been only limited and sporadic trading in the Common Stock, principally among its shareholders. On March 20, 2015, there were approximately 480 stockholders of record. There were no sales of unregistered securities of the Company and no purchases or sales of CKX equity securities during 2014 by the Company. The closing price for the Common Stock was \$14.42 on March 19, 2015. The following table sets forth the high and low sales prices for the Common Stock by quarter during 2014 and 2013.

		<u>First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>
Common stock price per share 2014	high	16.20	16.80	17.05	16.30
	Low	14.26	14.58	15.42	15.40
Common stock price per share 2013	high	15.99	15.50	15.43	16.13
	low	11.58	13.05	13.75	14.13

The Company has paid cash dividends since 1990. The Company is currently paying a quarterly dividend of 7¢ per share and intends to maintain paying quarterly dividends. From time to time, the Company may elect to pay an extra dividend. In determining if an extra dividend will be declared, the Board of Directors will take into consideration the Company's current liquidity and capital resources and the availability of suitable timberland that has mineral potential. The Company did not pay an extra dividend to shareholders in 2014 or 2013. A summary of cash dividends declared is set forth in the table below.

	<u>First Quarter</u>	<u>Second Quarter</u>	<u>Third Quarter</u>	<u>Fourth Quarter</u>	<u>Year Total</u>
Cash Dividend per Share					
2014	\$0.07	0.07	0.07	0.07	0.28
2013	\$0.07	0.07	0.07	0.07	0.28

Pursuant to a dividend reversion clause in the Company's Articles of Incorporation, dividends not claimed within one year after a dividend becomes payable will expire and revert in full ownership to the Company and the Company's obligation to pay such dividend will cease. During 2014 and 2013, the Company received \$11,413 and \$0, respectively, in dividend reversions.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

CKX Lands, Inc. began operations in 1930 under the name Calcasieu Real Estate & Oil Co., Inc. It was originally organized as a spin-off by a bank operating in Southwest Louisiana. The purpose of the spin-off was to form an entity to hold non-producing minerals which regulatory authorities required the bank to charge off. Over the years, as some of the mineral interests began producing, the Company used part of the proceeds to acquire land. In 1990, the Company made its largest acquisition when it was one of four purchasers who bought a fifty percent undivided interest in approximately 35,575 acres in Southwest Louisiana.

Today most of the Company's income is derived from mineral royalties and timber sales from the Company lands. CKX receives income from royalty interest and mineral leases related to oil and gas production, timber sales, and surface rents. Although CKX is active in the management of its land and planting and harvesting its timber, CKX is passive in the production of income from oil and gas production in that CKX does not explore for oil and gas, or operate wells. These oil and gas activities are performed by unrelated third parties.

The Company's oil and gas income fluctuates as new oil and gas production is discovered on Company land and then ultimately depletes or becomes commercially uneconomical to produce.

CKX has small royalty interests in 37 different producing oil and gas fields. The size of each royalty interest is determined by the Company's net ownership in the acreage unit for the well. CKX's royalty interests range from 0.0034% for the smallest to 7.62% for the largest. As the Company does not own or operate the wells, it does not have access to any reserve information.

Eventually, the oil and gas under the Company's current land holdings will be depleted. The Company is constantly looking for additional land to be purchased in southwest Louisiana. Preferably, the Company searches for timberland that has mineral potential.

Results of Operations

Fiscal Year 2014 Compared to Fiscal Year 2013

Total revenues for 2014 were \$2,618,741, an increase 23.89% when compared with 2013 revenues of \$2,113,828. Total revenue consists of oil and gas, timber, and surface revenues.

Oil and gas revenues were 56.66% and 85.50% of total revenues for 2014 and 2013, respectively. Oil and gas revenues consist of royalty revenue and lease rental revenue. During 2014 these revenues changed from 2013 as follows:

	<u>2014</u>	<u>2013</u>	<u>\$ Change</u>	<u>% Change</u>
Royalty	\$1,366,281	\$1,716,192	\$(349,911)	(20.39)%
Lease Rental	<u>117,499</u>	<u>91,128</u>	<u>26,371</u>	<u>28.94%</u>
Total	<u>\$1,483,780</u>	<u>\$1,807,320</u>	<u>\$(323,540)</u>	<u>(17.90)%</u>

During 2014, royalty revenues from gas production increased by approximately 4,340 MCF, and the average gas sales price per MCF increased by approximately \$0.63 resulting in an increase in gas revenue of \$48,536. Revenue from oil production, including plants, decreased by \$399,897. This decrease was due to the net effect of a decrease of \$6.59 in the average barrel sales price, not including plants, and a decrease in production of approximately 2,680 barrels, not including plants, and a decrease in plants revenue of \$49,740.

The following four fields produced 77.82% of the Company's oil and gas revenues in 2014. The following table shows the number of barrels of oil (Bbl Oil) and MCF of gas (MCF Gas) produced from these fields.

Field	Bbl Oil	MCF Gas
South Bear Head Creek	5,149	3,948
Cowards Gully	2,061	4,602
South Lake Charles	744	7,935
South Gordon	672	4,035

Notes to above schedule:

- (1) Before deduction of severance taxes and other charges.
- (2) Excludes plant products.

In 2013, the following three fields produced 70.75% of the Company's oil and gas revenues. The following table shows the number of barrels of oil (Bbl Oil) and MCF of gas (MCF Gas) produced from these fields.

Field	Bbl Oil	MCF Gas
South Bear Head Creek	5,781	5,965
Cowards Gully	2,317	7,555
South Jennings	623	14,518

Notes to above schedule:

- (1) Before deduction of severance taxes and other charges.
- (2) Excludes plant products.

From review of the limited information provided by the field operators, it appears that three new wells went into production in existing fields during 2014.

In 2014, the Company was a lessor in 9 new mineral leases covering a total of 1,518.829 gross acres or 173.871 net acres. The new leased acres are located in 3 different parishes.

Timber income increased by \$532,136 from 2013. The Company harvested timber during 2014 due to acceptable timber prices. In addition, the Company will continue to perform its internal maintenance programs for age class timber and storm protection measures and thus the Company does sell a fluctuating minimal timber volume each year regardless of market conditions.

Surface income increased by \$296,317 from 2013. Surface income includes income from farm leases, right of way grants, hunting leases and other surface leases. This increase was due to two right of way agreements executed during 2014 which are not recurring revenue.

Outlook for Fiscal Year 2015

The Company continues to actively search for lands that meet our criteria of timberland with mineral potential. During 2014, the Company purchased 380 acres of timberland. The Company anticipates that finding acceptable land at reasonable fair values during 2015 is likely. The Company may consider land purchases outside of southwest Louisiana.

Oil and gas prices have dropped significantly from the 2014 average per Bbl and MCF prices in the last quarter of 2014 and the first quarter of 2015. The Company expects oil and gas revenues to be significantly less in 2015 than in 2014 due to this drop in prices as well as oil and gas companies reportedly decreasing exploration and production capital expenditure budgets.

Currently, there are 28 non-producing mineral leases covering approximately 3,243.91 gross acres or 599.48 net acres. The Company believes that it is likely that some of these leases will be drilled and production discovered.

The Company does expect to continue to harvest timber in 2015 assuming timber prices remain stable or improve. Timber revenue in 2015 is expected to remain flat when compared to 2014 revenue levels.

Liquidity and Capital Resources

The Company's current assets totaled \$7,102,092 and total liabilities equaled \$285,663 at December 31, 2014. Additional sources of liquidity include the Company's available bank line of credit for \$5,000,000.

In the opinion of management, current cash flow from operations, cash and cash equivalents, investments and the available line of credit are adequate for projected operation, possible land purchases and continuation of the regular cash dividend.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The most significant accounting estimates inherent in the preparation of our financial statements include the following items:

Our accounts receivable consist of incomes received after year end for royalties produced prior to year end. When there are royalties that have not been received at the time of the preparation of the financial statements for months in the prior year, we estimate the amount to be received based on the last month's royalties that were received from that particular company. We do not maintain an allowance for doubtful accounts because other than the accrual for earned but not received royalties, we have no accounts receivable.

The Company accounts for income taxes in accordance with ASC Topic 740, Income Taxes, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of assets and liabilities.

When land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. Reforestation costs are capitalized and added to the timber asset account. The timber asset is depleted when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract.

Forward Looking Statements

Certain matters contained in this report are forward-looking statements including, without limitation, the information contained under the heading "Outlook for Fiscal Year 2015" in Item 7 of this report. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control and difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecast in such forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this report. Unless legally required, the Company undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Additional information may be obtained by reviewing the information set forth below under "Significant Risk Factors" and information contained in the Company's reports periodically with the SEC.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Significant Risk Factors

The Company's business and operations are subject to certain risks and uncertainties, including:

Reliance upon Oil and Gas Discoveries

The Company's most significant risk is its reliance upon others to perform exploration and development for oil and gas on its land. Future income is dependent on others finding new production on the Company's land to replace present production as it is depleted. Oil and gas prices as well as new technology will affect the possibility of new discoveries.

Commodity Prices

The majority of the Company's operating income comes from the sale of commodities produced from its lands: oil and gas, and forest products. Fluctuations in these commodity prices will directly impact net income. In 2014, average gas prices paid to the Company were 14.31% higher than the average in 2013, and average oil prices, excluding plants, were lower in 2014 than in 2013, by 6.30%. If the average oil and gas prices in 2014 reverted to the 2013 averages, income before income tax would have increased by approximately 1.96%.

Natural Disasters

The Company has approximately 9,637 net acres of timberland in various stages of growth. A typical timber stand will be harvested after 35 years of growth with some thinning occurring during this time. A natural disaster can have a material adverse effect on timber growth, reducing its value. Natural disasters could include a hurricane, tornado, high winds, heavy rains and/or fire cause by lightning.

Interest Rate Risks

The Company has no direct exposure to changes in foreign currency exchange rates and minimal direct exposure to interest rates. The Company has an unsecured line of credit with Whitney National Bank with no outstanding balance. The Company has no current plans to draw against this line.

Item 8. FINANCIAL STATEMENTS

All financial statements required by this item are listed in the Table of Contents to Financial Statements appearing immediately after the signature page of this Form 10-K and are included herein by reference.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of December 31, 2014, an evaluation was performed under the supervision and with the participation of the Company's management, including the principal executive and financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the principal executive and financial officer, concluded that the Company's disclosure controls and procedures were effective as of December 31, 2014.

Management's Annual Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting ("ICFR") for the Company. In assessing the Company's ICFR, management follows the Committee of Sponsoring Organizations of the Treadway Commission's ("COSO") Internal Control - Integrated Framework (2013) in assessing the effectiveness of the Company's ICFR. Management shall determine ICFR ineffective if a material weakness exists in the controls.

Management has assessed the Company's ICFR as effective as of December 31, 2014.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

During the quarter ending December 31, 2014, the Company's Management followed the COSO Internal Control - Integrated Framework (2013) when assessing the ICFR. During the quarter ending December 31, 2014, there have been no changes in the Company's internal control over financial reporting that has materially affected or is reasonably likely to affect, the Company's internal control over financial reporting.

Item 9B. OTHER INFORMATION

None.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To:

The Board of Directors, and
Stockholders of CKX Lands, Inc.
Lake Charles, Louisiana

We have audited the accompanying balance sheets of CKX Lands, Inc. as of December 31, 2014 and 2013, and the related statements of income, stockholders' equity, and cash flows for each of the years in the two year period ended December 31, 2014. CKX Lands, Inc.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CKX Lands, Inc. as of December 31, 2014 and 2013, and the results of its operations and its cash flows for each of the years in the two year period ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

CKX Lands, Inc.
Notes to Financial Statements

Note 1. Nature of Business and Significant Accounting Policies

Nature of business:

The Company's business is the ownership and management of land. The primary activities consist of leasing its properties for minerals (oil and gas), raising and harvesting timber, and surface use (agriculture, right of ways, hunting).

Significant accounting policies:

Pervasiveness of estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash equivalents:

Cash equivalents are highly liquid debt instruments with original maturities of three months or less when purchased.

Certificate of deposits:

Certificates of deposit have maturities greater than three months when purchased, in amounts not greater than \$250,000 and no more than one certificate issued per financial institution. All certificates of deposit are held until maturity and recorded at amortized cost which approximates fair value. Certificates of deposit mature through 2016.

Property and equipment:

Property and equipment is stated at cost. Major additions are capitalized; maintenance and repairs are charged to income currently. Depreciation is computed on the straight-line and accelerated methods over the estimated useful lives of the assets.

Timber:

When timber land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. Reforestation costs are capitalized. The timber asset is depleted when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract.

Oil and gas:

Oil and gas income is booked when the Company is notified by the well's operator as to the Company's share of the revenue proceeds together with the withheld severance taxes. In addition, the Company does accrue estimated oil and gas net income based on actual amounts collected from producers. This accrued amount is recorded as accounts receivable.

The Company has no capitalized costs relating to oil and gas producing activities and no costs for property acquisition, exploration and development activities.

Net Income and Dividends Paid per common stock:

Net income and dividends paid per common stock are based on the weighted average number of common stock shares outstanding during the period.

CKX Lands, Inc.
Notes to Financial Statements (continued)

Dividends

Pursuant to a dividend reversion clause in the Company's Articles of Incorporation, dividends not claimed within one year after the dividend became payable will expire and revert in full ownership to the Company and the Company's obligation to pay such dividend will cease.

Income taxes:

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

In accordance with generally accepted accounting principles, the Company has analyzed its filing positions in federal and state income tax returns for the tax returns that remain subject to examination, generally 3 years after filing. The Company believes that all filing positions are highly certain and that all income tax filing positions and deductions would be sustained upon a taxing jurisdiction's audit. Therefore, no reserve for uncertain tax positions is required. No interest or penalties have been levied against the Company and none are anticipated.

Note 2. Oil and Gas Leases

Results of oil and gas leasing activities for the year ending December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Gross revenues		
Royalty interests	\$1,366,281	\$1,716,192
Lease Fees	<u>117,499</u>	<u>91,128</u>
	1,483,780	1,807,320
Production costs	<u>97,702</u>	<u>114,204</u>
Results before income tax expense	1,386,078	1,693,116
Estimated income tax expense (40%)	<u>554,431</u>	<u>677,246</u>
Results of operations from producing activities excluding corporate overhead	<u>\$ 831,647</u>	<u>\$ 1,015,870</u>

There were no major costs, with the exception of severance taxes, incurred in connection the Company's oil and gas leasing activities, which are located entirely within the United States, during the years ended December 31, 2014 and 2013.

Reserve quantities (unaudited):

Reserve information relating to estimated quantities of the Company's interest in proved reserves of natural gas and crude including condensate and natural gas liquids is not available. Such reserves are located entirely within the United States. A schedule indicating such reserve quantities is, therefore, not presented. All oil and gas royalties come from Company owned properties that were developed and produced by producers, unrelated to Company, under oil and gas mineral lease agreements.

CKX Lands, Inc.
Notes to Financial Statements (continued)

Note 2. Oil and Gas Leases (continued)

Company's royalty and working interests share of oil and gas, exclusive of plant products, produced from leased properties:

	<u>2014</u>	<u>2013</u>
Net gas produced (MCF)	46,457	42,117
Net oil produced (Bbl)	10,593	13,273

Note 3. Income Taxes

The Company files federal and state income tax returns on a calendar year basis.

The net deferred tax liability in the accompanying balance sheets includes the following components at December 31, 2014 and 2013:

	<u>2014</u>		<u>2013</u>	
	<u>Current</u>	<u>Non-Current</u>	<u>Current</u>	<u>Non-Current</u>
Deferred tax assets	\$ --	\$ --	\$ --	\$ --
Deferred tax liabilities	<u>---</u>	<u>(224,426)</u>	<u>---</u>	<u>(181,818)</u>
	<u>\$ ---</u>	<u>\$ (224,426)</u>	<u>\$ ---</u>	<u>\$ (181,818)</u>

Reconciliations between the United States Federal statutory income tax provision, using the statutory rate of 34%, and the Company's provision for income taxes at December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
<u>Income tax on income before extraordinary item:</u>		
Tax at statutory rates	\$654,842	\$471,109
Tax effect of the following:		
Statutory depletion	(69,680)	(87,526)
Section 1033 deferred gain	(36,217)	--
State income tax	49,519	33,546
Other	<u>60</u>	<u>(1,285)</u>
Income tax on income	<u>\$598,524</u>	<u>\$415,844</u>

Deferred income taxes result from timing differences in the recognition of revenue and expenses for tax and financial statement purposes. The effect of these timing differences at December 31, 2014 and 2013 is as follows:

	<u>2014</u>		<u>2013</u>	
	<u>Current</u>	<u>Non-Current</u>	<u>Current</u>	<u>Non-Current</u>
Casualty loss	--	(121,239)	--	(121,239)
Deferred gain	<u>---</u>	<u>(103,187)</u>	<u>---</u>	<u>(60,579)</u>
	<u>\$ ---</u>	<u>(224,426)</u>	<u>\$ ---</u>	<u>(181,818)</u>

CKX Lands, Inc.
Notes to Financial Statements (continued)

Note 4. 1033 Exchange:

During the third quarter of 2014, the Company sold a right of way to a utility company under threat of expropriation for \$106,521 and the gain was \$106,521. This transaction was structured as a “deferred exchange” pursuant to Paragraph 1033 of the Internal Revenue Code (1033 Exchange) for income tax purposes and as such the gain of \$106,521 was deferred for income tax purposes. During September, 2014, the Company purchased 180 acres of timberland located in Jefferson Davis Parish, Louisiana for \$279,828 of which \$63,000 was the value of timber on the land. The land valued at \$216,828 was used as replacement property for the 1033 Exchange deferred gain above. The Company recognized a deferred income tax of \$42,609 on this transaction.

Note 5. Company Operations

The Company’s operations are classified into three principal operating segments that are all located in the United States: oil and gas, surface and timber. The Company’s reportable business segments are strategic business units that offer income from different products. They are managed separately due to the unique aspects of each area.

Following is a summary of segmented operations information for 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Revenues		
Oil and Gas	\$1,483,780	\$1,807,320

There are no intersegment sales reported in the accompanying income statements. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates performance based on income or loss from operations before income taxes excluding nonrecurring gains and losses on securities held available-for-sale. Income before income tax represents net revenues less costs and expenses less other income and expenses of a general corporate nature. Identifiable assets by segment are those assets used solely in the Company's operations within that segment.

Revenue from customers representing 5% or more of total revenue was:

<u>Count</u>	<u>2014</u>	<u>2013</u>
1	\$680,000	\$759,000
2	624,000	236,000

5	160,000	\$129,000
6	\$138,000	

Note 6. Line of Credit

The Company has available an unsecured line of credit in the amount of \$5,000,000. The balance on this line of credit was \$-0- at December 31, 2014 and 2013.

Note 7. Supplementary Income Statement Information

Taxes, other than income taxes, of \$186,161 and \$203,287, were charged to expense during 2014 and 2013, respectively.

Note 8. Contingencies:

There are no material contingencies known to Management. The Company does not participate in off balance sheet arrangements.

Note 9. Concentration of Credit Risk

The Company maintains its cash balances in two financial institutions. The amount on deposit in the financial institution is insured by the Federal Deposit Insurance Corporation up to \$250,000.

CKX Lands, Inc.
Notes to Financial Statements (continued)

Note 10. Related Party Transactions

Office rent of \$4,800 and \$4,600, was paid to a company owned by President in 2014 and 2013, respectively.

During 2014 and 2013, \$4,517 and \$4,311, respectively, was paid to the President's spouse's law firm.

During 2013, \$3,810 was paid to the Secretary's prior law firm for legal work. No amounts were paid to his prior law firm in 2014.

Note 11. Subsequent Events

On March 19, 2015, the Company's Board of Directors declared a dividend of seven cents (\$0.07) per common share to shareholders of record April 2, 2015 and payment date of April 16, 2015.

Note 12. Disclosures about Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it was practical to estimate that value:

<u>Class</u>	<u>Methods and/or Assumptions</u>
Cash and cash equivalents:	Carrying value approximates fair value due to its readily convertible characteristic.
Certificate of Deposit:	Held until maturity and recorded at amortized cost which approximates fair value.
Securities available-for-sale	Valued at fair value which equals quoted market price.

The estimated fair value of the Company's financial instruments at December 31, 2014 and 2013 are as follows.

 - c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
